I have been a financial supporter of KLOVE for years now and firmly believe that it is a worthy organization. I also believe that it has served my local area of Chicago very well as it is the only station of its kind here. Klove is a station of great integrity and high moral standards and I recommend that this station not be replaced by an LPFM station. It has served me personally in my Christian faith as well as several of my local friends. It is a place that we as Christians can recommend new Christians to go to get great encouragement. Please do not change anything with Klove, it is perfect the way it is! Thank you and blessings from our Lord.
